durable and stylish finish.

## TYPICAL DOOR CONFIGURATIONS

**Single  
Residential Door**

**Double  
'French' Doors**

**2-Leaf, no transit door**

**3-Leaf, opposite hung  
transit door**

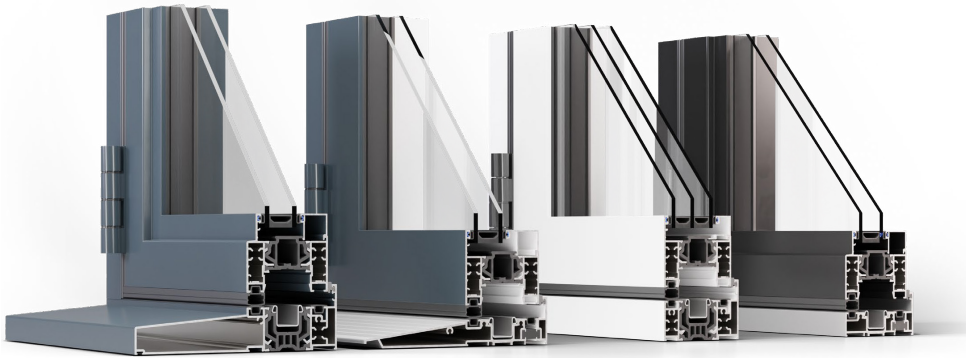

**4-Leaf, symmetrical opening, no transit door**

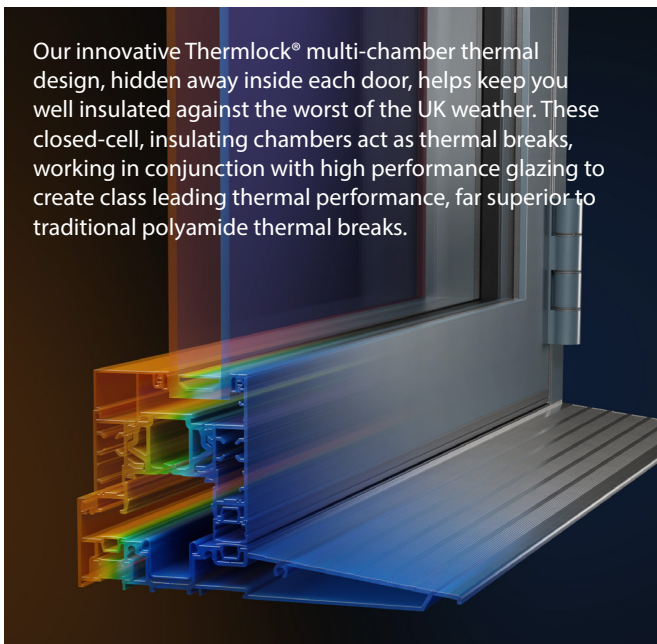

**6-Leaf, assymetrical opening, no transit door**

## 4 LOW THRESHOLD OPTIONS

Prestige bi-folds come with four threshold options all featuring fully weather-sealed rebates that keep the worst of the British weather safely outside. These rebates also ensure doors aren't over-centred during operation, helping locks to engage correctly.

Our innovative Thermlock® multi-chamber thermal design, hidden away inside each door, helps keep you well insulated against the worst of the UK weather. These closed-cell, insulating chambers act as thermal breaks, working in conjunction with high performance glazing to create class leading thermal performance, far superior to traditional polyamide thermal breaks.

**Custom-designed rollers**  
Eliminating the need for floating mullions and a smooth opening/ closing operation
